I agree that this is a good idea.

Sounds like a good idea to me. I have a meeting set up with Rizgar once a month so the quarterly meeting would fit in for all of us to get together.

(That said, we are trying to catch up with Rizgar weekly on Exide alone!)

Tom and Barbara, I currently have a limited opportunity to meet with DTSC about once a quarter long with Superfund. Generally, RCRA issues take a back seat to the Superfund issues. I was thinking it might be appropriate for us to have our own quarterly meetings to discuss general RCRA issues but mainly to talk about HOT SITES. The meeting would require participation from both DTSC Permitting and Cleanup. Maybe even enforcement. A quarterly meeting might help us stay better informed on site status before they become political.
